REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: None of the prior art teaches or suggests using a display that displays a reference image in a first area, an observation image in a second area and combining or simultaneously displaying the observation image and the reference image in a third area to allow comparison observation, as variously required by claims 1, 13, 17, 20, 23, 25, 29, 32, 35, 38, 40 and 41. In addition, while Bishop et al. does suggest the use of separate macro-observation and micro-observation units, with the specimen moved between them, Bishop et al. fails to suggest that such observation units share a single camera using an optical path switching means to switch the camera's optical path between the macro-observation unit and the micro-observation unit, as stipulated by claim 9.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

2. Claims 1-23, 25-35 and 38-41 (now renumbered for issue as 1-23, 24-34 and 35-38, respectively) are allowed.
